

Do You Have Any Students That Want To Be An EMT/Paramedic/ Firefighter/In The Medical Industry?

Abbott EMS offers an EMT class to local High Schools to prepare students for their National Registry examination.

Benefits of the program:

- * Students secure a job immediately after graduation and completion of the National Registry examination.
- * Students receive nine credit hours of transferable college credit.
- * Classes are taught at the High School during school hours.

The course is taught by Abbott EMS/IHM Academy. Instructors have over 60 years of combined EMS education experience.

Please contact Stephanie Wright if you are interested in setting up this program at your high school.

314-678-4102

Potential after the EMT program:

- * Students are able to apply for tuition assistance for an approved Paramedic Class after Full-Time status has been rendered.

Avenues available after Paramedic License:

- * Critical Care—Flight Paramedic
- * Leads to career potential in Fire Service, Nursing (Bridge to Nursing), and other healthcare careers.
