Longbow Academic Readiness Accelerator Description (from Mat Favre; more information

<https://stlcc.edu/programs-academics/continuing-education/longbow/>)

Longbow is a no-cost, non-credit program targeting dev. ed. eligible students (ENG:030, RDG:030, MTH up to 140). Can participate in math and/or literacy. Students can set schedule M-F with limited evening hours available for math. Time to complete varies depending on student commitment (time and effort), target completion date (i.e. start of future semester), and material to cover. Meets students where they are; we diagnose current level and move from there. Registration and enrollment through supervisor, Mat Favre: typically takes less than 24 hours.

Perfect for those who:

- would like to avoid dev ed coursework (re-test Accuplacer)
- have not been successful in dev ed (to retake class or test out)
- lack confidence or need refresher, typically as a result of extended time away from school
- are waiting for financial aid eligibility
- need WorkKeys scores to gain entry in training programs

Email to Student when Referral comes from Advising to Longbow Academic Readiness Accelerator

You have been referred to STLCC's Longbow Academic Readiness Accelerator by a student success advisor. Longbow can help you prepare for upcoming coursework, avoid re-taking classes, or test out of upcoming required classes.

The program isn't like regular coursework: we move at a pace that works best for you and your needs, and we won't spend time covering material you already know. It is tailored to you to help you reach your goals. Longbow does not offer college credit, but it is **available at no cost to you.**
